

Creating Art in Nature

Activity: Take a cue from the British sculptor, photographer, and environmentalist Andy Goldsworthy and try creating a work of art outdoors using only natural materials found on-site. Try creating a pattern, a gradient, or even a self-portrait! Take a photo of your creation, and check back in a couple of days to see how the wind, rain, sun, or snow has changed the design over time.

Inspiration from Andy Goldsworthy:

GRASS RIVER
